

Bestiarium Zircense - book presentation

2016/10/07

Preparing for procreation, the elephant goes East, near Paradise where mandrake is growing. The female animal eats from the fruit and she offers it to her mate. While he is eating, she seduces him and gets pregnant. The baby is born in water where her enemy, the dragon cannot attack her. – Bestiarium Zircense takes up the last sixteen pages of a bulky medieval book. The facsimile edition describing real and imaginary beings will be presented in Zirc in October 13, 2016.
