framework of the so-called National Library Center, his main task was to assess the stock of nationalized libraries and carry them to a safe location. In 1956 he was fired because he participated in the activities of the revolutionary committee of the Library. Dörnyei rejoined NSZL in 1986 as a senior associate of the Editorial Office of Early Hungarian Prints. His job was to take part in the compilation of a retrospective bibliography of prints made before 1801. Among others, he was responsible for compiling the supplement to the 3rd Volume of Régi Magyar Könyvtár (*Old Hungarian Library*) by Károly Szabó and its “continuation”, the bibliography of publications by 18th-century Hungarian authors published abroad in foreign languages.

Birthday celebration started at 11 a.m. on November 22, 2016 in the lounge of the Library on Floor 8. At the cordial ceremony, friends, colleagues, fellow researchers and his students greeted Sándor Dörnyei. Respecters of the medical historian and bibliographer presented him a celebration book including personal greetings as well as studies on the history of medicine, pharmacy and press, and various writings related to research in national bibliography and to other fields of cultural history. Vászárhelyi, Head of the Department of Research in Book and Cultural History and Péter Perger, editor of the book greeted Dörnyei, who was presented the volume by Péter Perger and László Boka, Director of Research and Academic Affairs, NSZL.
